

## FLOOR STANDING RACK 33U – CR 10

The Racks of Rentron SA have been designed to fulfill the telecommunications network manager system requirements. The efficient design allows for an easy installation at the required areas, such as access to the inside of the cabinets simply by disassembling the sides and the rear cover. Using its vast experience in manufacturing Racks, Rentron has succeeded in producing a wide range of components that are distinguished for their excellent quality.

### TECHNICAL FEATURES

- Door with security lock and Plexiglass or Hole-Punched or Blind.
- Removable back cover with sliding pins or rear door.
- Removable side covers with clips.
- Four vertical machinery support rails 19", 2mm sheet steel.
